TOURNEY MACHINE TIE BREAKERS EXPLAINED:

Carolina Event Management is **NOT** the author of this content and is not responsible for errors or omissions.

NOTE: Tie breakers within TourneyMachine never go back to the top of the tie breaker list. For example, if three teams are tied with **Head to Head** as the first tie breaker, and all three teams have a 1-1 record against each other, the **Head to Head** rule doesn't break any ties. The system will then go to the next tie breaker. If the next tie breaker is **Goal Diff** and Team 1 has a differential of 3, Team 2 has a differential of 2 and Team 3 a differential of 1, then Team 3 will be last, Team 2 second and Team 1 first, even if Team 2 beat Team 1 **Head to Head** because it was bypassed in the first step and does not go back to the top, even after Team 3 is eliminated by the differential rule.

- **Record** - This is in part based on winning percentage (see below), but also favours the team with the greatest number of Wins, or the least number of Losses. For example, if Team A is 2-4-0, Team B is 1-3-2 and Team C is 0-2-4, they have the same winning percentage, but the Record would favour Team A, then Team B, then Team C due to the Wins.
- **Head to Head** - This breaks ties based on the **Record** tie breaker (or **Points**, if points are used) against the tied teams. For example, 3 teams have the same overall record at 4-2 and all 3 of the teams played each other an equal number of times. If one team's record against the other two was 2-0 and another team's was 1-1 and the last was 0-2, this tie breaker would rank them accordingly. If all three teams had identical 1-1 records, this tie breaker would not be used.

It should be noted that this tie breaker is completely ignored if all of the teams tied do not play each other an equal number of times. For example if there are 3 teams tied and one team played the other two, but the other two did not play each other, this tie breaker will be ignored (regardless of the outcome of the two games played by the first team).

- **Head to Head Two Teams Only** - This is the same as the **Head to Head** tie breaker, except this one will only be used if only two teams are tied. If there are three or more teams tied (even if they all played each other), this tie breaker will be ignored.
- **Head to Head Goal Diff** - This breaks ties based on the differential against the teams tied with. For example, if 3 teams have tied, this tie breaker calculates the differential for each team, but only using games where the teams have played each other.

It should be noted that this tie breaker is completely ignored if all of the teams tied do not play each other an equal number of times. For example if there are 3 teams tied and one team played the other two, but the other two did not play each other, this tie breaker will be ignored (regardless of the outcome of the two games played by the first team).

- **Goal Diff** - The differential tie breaker determines the total difference between a team's score versus their opponents'. The largest differential wins the tie breaker.
- **Goals Allowed** - The total of a team's opponent's score. The smallest total wins the tie breaker.
